

EMPLOYMENT OPPORTUNITY

APPLICATIONS TECHNICIAN

Temperzone is a leading manufacturer, distributor of innovative air conditioning and ventilation products throughout Australasia, Southeast Asia, and China. We are also the exclusive distributor of Hitachi Cooling & Heating products within Australia and New Zealand. We have evolved through an ongoing commitment to best manufacturing practices, innovative design, customer service, and technology for quality delivery.

About the role

We are currently looking for an experience Applications Technician to join our Research and Development team. In this role you will:

- Test, verify and improve the control solutions for our products.
- Provide feedback and support to the control and engineering teams in NZ and Australia
- Assist in the field by optimisations of controls in applications to meet our customers' expectations
- Set up and evaluate control applications in the field via Temperzone connect with suggestions for improvements
- Assist with the documentation and training of employees to factory test, warranty support and sales/marketing the innovate controls technology platforms developed.

What you will bring to the role

To be successful in this role you will have experience with Schneider, Corel or equivalent PLC's and controls as well as prior experience in testing and analysis. You will have an interest and understanding of HVAC systems as well as a willingness to learn.

Your ability to problem solve and think outside of the box to determine the root cause is second to none. Communication skills, both written and verbal, are a strength of yours as is your can-do attitude and capability to build relationships quickly.

You will have either a Bachelor of Engineering or equivalent (specialising in electrical, electronics or mechatronics) or HVAC National Diploma of Engineering. You will also have an Electrical Service Technician current practicing licence.

What we can offer

We are a close-knit team which offers a supportive environment, free on-site parking, and well as opportunities for development. This role would be ideal for someone who has ambition to advance their career in manufacturing leadership.

At Temperzone we believe that our people are our strength so it's important to us to have the right people in the right roles to move us into the future. Does this sound like the next step in your career? Apply now!
