

EMPLOYMENT OPPORTUNITY

Electrical Testers (EST) - Permanent

Temperzone is a leading manufacturer, distributor of innovative air conditioning and ventilation products throughout Australasia, Southeast Asia, and China. We are also the exclusive distributor of Hitachi Cooling & Heating products within Australia and New Zealand. We have evolved through an ongoing commitment to best manufacturing practices, innovative design, customer service, and technology for quality delivery.

About the role

On a day-to-day basis you will be assembling and connecting components, carrying out quality checks with live wires/conductors in single phase and/or 3-phase, testing to ensure the units are operating to the required specifications as well as other general assembly tasks.

What you will bring to the role

You will have a strong work ethic, possess a high level of attention to detail along with time management and planning skills.

Along with great communication and the ability to problem-solve, to be successful in this role you will need to have a current electrical licence from the EWRB (Electrical Workers Registration Board).

Previous experience in testing appliances and general hands-on work is key. Experience within a manufacturing environment is an advantage but not essential likewise with HVAC experience.

What we can offer

We are a close-knit team which offers a supportive environment, free on-site parking, onsite café and well as opportunities for development.

At Temperzone we believe that our people are our strength so it's important to us to have the right people in the right roles to move us into the future. Does this sound like the next step in your career? Click 'Apply' now!
