

EMPLOYMENT OPPORTUNITY

Internal Sales Engineer

Temperzone is a leading manufacturer, distributor of innovative air conditioning and ventilation products throughout Australasia, Southeast Asia, and China. We are also the exclusive distributor of Hitachi Cooling & Heating products within Australia and New Zealand. We have evolved through an ongoing commitment to best manufacturing practices, innovative design, customer service, and technology for quality delivery.

About the role

We currently have several exciting opportunities for Sales Engineers to join the Internal Sales Team based at our Head Office in Mangere.

In this role you will manage customer inquiries, product selection, quoting, order processing as well as provide technical support, when needed, to our external sales engineers and customers across a range of our products.

What you will bring to the role

To be successful in these roles you will need to have a solid understanding of engineering principles, be mechanically minded, be able to build relationships quickly, are customer driven, solutions focussed and have strong analytical skills.

Other drawcards about you will be:

- Excellent verbal and written communication
- An eye for detail and accuracy
- Knowledge of gas heating and boilers is an advantage as is experience with air distribution.
- Experience in refrigeration/HVAC (brownie points)

What we can offer

We are a close-knit team which offers a supportive environment, a competitive remuneration package, free on-site parking, an on-site café and well as opportunities for development.

At Temperzone we believe that our people are our strength so its important to us to have the right people in the right roles to move us into the future.
